

High Temp Crepe Paper Tape

ABOUT THIS PRODUCT

This high performance, slightly crepe paper, wet resistant tape has a high tensile strength and is ideal for use in many applications including the masking of circuit boards before plating and other areas of high temperature i.e. oven drying (up to 140°C).

FEATURES AND BENEFITS

- Good temperature resistance
- Good aesthetic qualities
- Very good hand tear ability
- Easy to remove
- Very good paint anchorage

APPLICATIONS

- High temperature masking
- Cable bundling
- Packaging

MATERIAL DATA

Product Code	350
Material	Slightly crepe paper tape with natural rubber adhesive
Standard Colour	Natural
Total Thickness – µm	175

TECHNICAL TABLE

Temperature Resistance – °C	+140
Elongation at Break – %	12
Tensile Strength – N/cm	42
